

We'd like to thank everyone who has contacted us offering recordings.

It takes time to initially sort recordings, transfer them, confirm they match labels on boxes and determine what they are if they don't, and then double check against official holdings.

What follows is the first list comprising the recordings that we have completed the above process on and further lists will be issue. Individual recoveries of particular note have been returned to the BBC speedily for repeat or added to their online archives. These include:

Desert Island Discs: Dame Veronica (C.V.) Wedgwood (available as part of the Desert Island Discs archive)
